

# UNDERGROUND ACCURACY. ABOVE-GROUND RESULTS.

With over 25 years of HDD experience behind us, CT Civil is a specialist trenchless company built on generational knowledge, discipline, and hands-on capability.

Established in 2013, we're a second generation family business that brings practical expertise and a strong work ethic to every job.

We operate across VIC, NSW, SA, QLD, TAS and ACT, with ISO certified systems and a self contained HDD setup ready to mobilise anywhere. We've delivered trenchless utility installations across six states through tough rural terrain, beneath roads and rail, and into congested urban networks.

## What We Offer

- Horizontal directional drilling (HDD)
- Utility installations for telecom, power, water, sewer, and gas
- Crossings beneath roads, rail, and existing infrastructure
- Trenchless service upgrades and new network builds
- Drilling in all ground types — rock, clay, sand, and variable conditions, with bores up to 400m

## How We Operate

We run lean, mobilise fast, and deliver work that's done properly from planning through to reinstatement. Every project is approached with care, discipline, and respect for the ground we work in. We operate as a fully self-contained crew with our own drill rig, vac unit, excavator, and support setup giving us full control over drilling, fluids, spoil, and clean up. That keeps timelines tight and results consistent. Our work is grounded in preparation, control, and clean execution. Whether we're drilling over distance or navigating tight utility corridors, our team brings the experience and discipline to get it right above and below ground.

## Who We Work With

We're trusted by contractors, councils, utilities, and network builders who need HDD done cleanly, efficiently, and without headaches. Whether it's a short tie in or a multi day bore through difficult ground, we show up ready to get it done right.

## Certifications

- ISO 45001 – Occupational Health & Safety • ISO 14001 – Environmental Management • ISO 9001 – Quality Management
- Dial Before You Dig Certified • All staff hold White Cards, First Aid, and High-Risk Licences as required
